An **Examiner's Amendment** to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Mario Cloutier, on 5/10/2005.

#### **Examiner's Amendment to the Claims**

In claim 18, line 1, delete " a compound which selectively hybridizes to a " and substitute therefor --- the ---.

In claim 1(b), after SEQ ID NO:5", delete " ; ", and substitute therefor --- . ---.

#### **Examiner's Amendments to the Specification**

The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 1-7, 12 and 18 are directed to isolated nucleic acid molecules comprising DNA sequences encoding either a human protein kinase of specific amino acid sequence or homologs thereof having at least 95% identity to said amino acid sequence with kinase activity, vectors, kits and host cells comprising said molecules and methods of expressing said molecules.

Claimed DNA sequences are free of prior art. Further the prior art does not teach or suggest preparing such specifically claimed DNA sequences. Hence, said DNA sequences are also novel and non-obvious.

Serial Number: 10/077,130  
Art Unit 1652

Since claimed DNA sequences are both novel and non-obvious, molecules comprising said sequences, vectors, kits and host cells comprising said molecules and methods of expressing said molecules are also novel and non-obvious.

**Claims 1-7, 12 and 18 are allowed.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
